Market Technical Outlook

Nifty opened lower in wake of weak global clue but recovered all its losses in the latter half of the session which led the indices to close marginally in green. On the daily chart we are observing that price have taken support at the upward sloping trendline (shown above in the graph) and formed a narrow range body formation. We maintain our stance that the daily trend is still up and at lower level buying is likely to emerge.

In coming trading session if Nifty opens in the range of 11903 - 11882 then, go long, with a stop loss of 11860 for a target of 11931 – 11963 - 11998 levels.
