Market Technical Outlook

Nifty, opened higher traded with choppiness but finally managed to close in green. We still continue to maintain our stance that on the daily chart we are observing series of narrow range body formations which suggests that markets are cautiously positive at current level. In coming trading session if Nifty for first hour trades above 15835 levels then it may test 15950 - 16050 levels. On the downside, 15680 - 15580 levels may act as support for the day.

We still maintain our stance that stock specific activity is likely to continue in small and Mid-cap stocks.
