Market Technical Outlook

Nifty opened down with a gap in wake of weak global clue and traded with negative bias throughout the day to close in red. On the daily chart, we are observing downward gap area in the range of 16172 to 15886. Normally, downward gap area does act as resistance for the prices. In coming trading session if Nifty trades below 15680 level then it may test 15570 - 15450 levels. On the upside, 15870 - 15930 levels may act as resistance for the day.

Since, prior bottom of 15739 is breached on intraday basis one needs to adopt cautious approach at current level.
