Nifty opened higher but were unable to sustain the opening gains which led the indices to close in red. On the daily chart, we are observing strong bear candle which has closed below the upward gap area of 11058 to 11062. At present, the demand zone, of 10729 to 10939 holds significance going forward. We maintain our stance that Nifty is in a lower- top lower- bottom formation and pullback rallies are likely to attract selling pressure.

In coming trading session if Nifty opens down with a gap in the range of 10897 to 10850 levels one can go long with a stop loss of 10800. On the upside, we may see a pullback. In such scenario Nifty may test 10983 - 11019 levels.
