Nifty opened lower traded with choppiness and finally managed to close marginally in red. On the daily chart we are witnessing five consecutive narrow range body formations which suggest that a consolidation or minor pullback from current level cannot be ruled out .In coming trading session if Nifty for first hour trades above 17380 level then it may test 17460 - 17580 levels. On the downside, 17250 - 17160 levels may act as support for the day.

We still continue to maintain our stance that stock specific activity is likely to continue.
