Market Technical Outlook

Nifty, opened on a subdued note but witness selling in the latter half of the session which drag nifty to close in red. On the daily chart, we are observing that prices have almost tested the lower trendline of the falling channel. Further, 16900 – 16800 is a strong demand zone, hence a bounce cannot be ruled out from those levels. In coming trading session if nifty trades below 16980 level then it may test the demand zone of 16900 – 16800 levels. On the upside, 17230 – 17350 levels may act as support for the day.

We maintain our stance that prices for two consecutive trading session has convincingly close below the rising 200-days SMA (17446). Hence, one needs to adopt cautious approach at current level.
