Source: BSE

Nifty opened lower traded with choppiness and finally managed to close in red. On the daily chart, we are observing a narrow range body formation which suggests indecisiveness prevailing at current level. In coming trading session if Nifty trades below 15650 level then it may test 15550 - 15420 levels. On the upside, 15860 - 15910 levels may act as resistance for the day.

We main our stance that one needs to adopt cautious approach at current level.
