**Market Technical Outlook** 

Nifty, opened higher, traded with choppiness during the day but finally managed to close in green. On the daily chart, we are observing that prices for two consecutive trading session has closed convincingly above the 10days SMA(18621). We maintain our stance that prices are trading within the upward slopping channel (shown above in the graph). In coming trading session if nifty trades above 18770 level then it is likely to test 18840-18887 (All-time high) levels. On the downside, 18630 - 18560 level may act as support for the day.

We still continue to maintain or stance that looking at the major pattern of inverse head and shoulder formed above 17900 level suggests that market is heading to test all-time high or even head higher in couple of weeks. Hence, one needs to adopt positive approach at current level as stock specific activity is likely to continue.
