Nifty, opened higher but was unable to sustain the opening gains which led nifty to close in red. On the daily chart, we are observing that prices for second consecutive trading session has closed within the supply zone of 18000 to 18350. We maintain our stance that in coming trading session if nifty trades above 18370 level then it may test 18450 – 18560 levels. On the downside, 18210 – 18130 levels may act as support for the day.

We still continue to maintain our stance that, looking at the position of the short term moving averages and position of the momentum indicator viz. RSI we are of the opinion that momentum on the upside is likely to continue. Hence, one should adopt positive approach at current level.
