Market Technical Outlook

Nifty opened higher but was unable to sustain the opening gains and finally close in red. On the daily chart, we are observing a bear candle which suggests weakness going forward. In coming trading session if Nifty for first hour trades below 15740 level then it may test 15630 – 15510 levels. On the upside 15800 – 15900 levels may act as resistance for the day.

We still maintain our stance that on the daily chart prices are making a lower top lower bottom formation. Hence, rallies are likely to attract selling pressure. At present, one needs to adopt cautious approach at current level.
