Market Technical Outlook

Nifty opened on a subdued note traded with choppiness and witness selling pressure in the latter half of the session to close in red. On the daily chart, we are observing three consecutive narrow range body formation which suggests indecisiveness prevailing at current level. We maintain our stance that if Nifty trades below 15650 level then it may test 15550 - 15480 levels. On the upside, 15860 - 15910 levels may act as resistance for the day.

We continue to maintain our stance that one needs to adopt cautious approach at current level.
