Nifty, opened higher initially traded in a narrow range but witness upside momentum in the final hour of the trading session which led nifty to close in green. On the daily chart, we are observing that prices have closed above the supply zone of 18000 to 18350. This suggest that momentum on the upside is likely to continue. In coming trading session if nifty trades above 18430 level then it may test 18520 - 18604 levels. On the downside, 18300 - 18100 levels may act as support for the day.

We still continue to maintain our stance that, looking at the position of the short term moving averages and position of the momentum indicator viz. RSI we are of the opinion that momentum on the upside is likely to continue. Hence, one should adopt positive approach at current level.
