Market Technical Outlook

Nifty opened up with a gap and traded with positive bias throughout the day to close in green. On the daily chart we are observing an upward gap area in the range of 19494 to 19579. Normally upward gaps do act support for the prices. In coming trading session if nifty trades above 19680 level then it may test 19760 - 19850 levels. On the downside, 19570- 19490 levels may act as support for the prices.

Since, nifty has given close above the 50-days SMA (19580), we are of the opinion that nifty is likely to test 19850 – prior all-time high of 2022 in couple of weeks. Hence, one should adopt positive approach at current level as stock specific activity is likely to continue.
