Nifty opened on a subdued note but witnessed selling in the final hour of the trade which led nifty to close in red. On the daily chart, we are observing a bear candle which suggests that markets are cautious at higher level. In coming trading session if nifty for first hour trades below 17192 level then it may test 17080 - 17000 levels. On the upside, 17340 - 17420 levels may act as resistance for the day.

We still continue to maintain our stance that on 7th Dec-21 Nifty closes in green with higher volumes. Hence, we are of the opinion that the low of 16782 made on 7th-Dec - 21 may be an intermediate bottom. Hence cautiously positive approach at current level should be adopted.
