### Market Technical Outlook

Nifty, opened lower and momentum on the downside intensified as the day progressed which led the nifty to close deep in red. On the daily chart, immediate swing low is at 18345. Hence only a daily close below 18345 on daily closing basis may lead to further weakness. Incoming trading session if nifty holds 18345 level then it may test 18450 – 18560 levels. On the flip side if 18345 is breaches then next support level for nifty is at 18280 – 18170 levels.

**Broadly, 18345 on daily closing basis remains crucial support. Hence one needs to keep a bull stop of 18345 for the long positions.**

### Foreign Institutional Investments (FII's) Activities
