Market Technical Outlook

Nifty, opened higher but was unable to sustain the opening gains which led the indices to close in red. On the daily chart we are observing prices have closed below the falling 50-day SMA (14723 shown in red in the above graph) which is sign of weakness. In coming trading session if Nifty for first hour trades below 14590 level then it may test 14500 - 14450 levels. On the upside, 14800 - 14900 may act as resistance for the day.

We still maintain our stance that, one needs to adopt cautious approach at current level. However, stock specific activity is likely to continue in small and Mid-cap stocks.
