Market Technical Outlook

Nifty opened higher, traded with choppiness and finally managed to close in green. On the daily chart, we are observing a “Doji” candlestick pattern which suggests indecisiveness prevailing at current level. In coming trading session if Nifty for first hour trades below 15730 level then it may test 15630 – 15580 levels. On the upside 15950 – 16100 levels may act as resistance for the day.

Broadly, looking at current price action, we are of the opinion that a bounce from current level cannot be ruled out. We still maintain our stance that on the daily chart prices are making a lower top lower bottom formation. Hence, rallies are likely to attract selling pressure. At present, one needs to adopt cautious approach at current level.
