### Market Technical Outlook

Nifty, opened lower in wake of weak global clues and momentum on the downside intensified as the day progressed which led nifty to close in red. We still continue to maintain our stance that on the daily chart we are observing series of narrow range body formations which gives no clear direction of trend. In coming trading session if nifty for first hour trades below 15740 level then it may test 15630 – 15550 levels. On the upside, 15850 – 15950 levels may act as support for the day.

**We still maintain our stance that stock specific activity is likely to continue in small and Mid-cap stocks.**
