Market Technical Outlook

Nifty, opened higher but was unable to sustain the opening gains and selling dragged down nifty to close in red. On the daily chart, we are observing a candlestick pattern that resembles a bearish engulfing pattern. The said pattern will get activated once nifty trades and close below 17574 level. In such scenario nifty may test 17500 – 17480 levels. On the upside, 17800 – 17863 may act as resistance for the day.

We continue to maintain our stance that time-wise or price-wise consolidation or minor pullback cannot be ruled out. Hence, one needs to adopt cautiously positive approach at current level as stock specific activity is likely to continue.
