Market Technical Outlook

Nifty, opened lower in wake of weak global clues but recovered some of its losses during the day to close in red. On the daily chart we are observing that prices have formed a Doji candlestick pattern which suggests indecisiveness prevailing at current level. In coming trading session if Nifty for first hour trades below 15616 level then it may test 15580 - 15514 levels. On the upside 15780 - 15850 levels may act as resistance for the day.

We still maintain our stance that stock specific activity is likely to continue in small and Mid-cap stocks.
