Market Technical Outlook

Nifty opened higher but was unable to sustain the opening gains and selling in the latter half of the session dragged down Nifty to close in red. On the daily chart, we are observing a bearish engulfing pattern at the supply zone. The said pattern will get activated once Nifty trades and close below 18085 level. In coming trading session if Nifty for first hour trades below 18085 level then it may test 18000 – 17900 levels. On the upside, 18200 – 18350 levels may act as resistance level.

Looking at the current pattern formation on the daily chart, it is evident that corrective move from current level cannot be ruled out. However, we continue to maintain our stance that any close above 18342 level with good volumes would propel nifty to test recent high of 18604 or extend its gains for fresh new high. Hence, one needs to adopt cautiously positive approach at current level.
