Nifty, opened up with a gap and traded in a narrow range with positive bias to close in green. On the daily chart we are observing an upward gap area in the range of 14938 to 15043. Normally upward gaps do act support for the prices. In coming trading session if Nifty for first hour trades15140 level then it may test 15200 - 15300 levels. On the downside, 15000 -14900 levels may act as support for the day.

We maintain our stance that, one needs to adopt cautiously positive approach at current level. However, stock specific activity is likely to continue in small and Midcap stocks.
