Market Technical Outlook

Nifty opened higher traded in a narrow range with mild negative bias which led the indices to close in red. On the daily chart we are observing a narrow range body formation which suggests indecisiveness prevailing at current level. Hence, we are of the opinion that one need to adopt cautiously positive approach at current level.

In coming trading session if Nifty opens in the range of 11865 - 11846 then, go long, with a stop loss of 11830 for a target of 11917 – 11930 - 11953 levels.
