### Market Technical Outlook

Nifty opened lower traded in a narrow range with mild negative bias to close in red. We maintain our stance that on the daily chart, we are witnessing two upward gap area 1) in the range of 20950 -21074& 2) 21210 to 21235. Normally, upward gap area does act as support for the prices. In coming trading session if nifty trades above 21450 level then it may test 21510 - 21580 levels. On the downside, 21300 -21210 levels may act as support for the day.

**Broadly, looking at the upward gap areas it is evident that momentum on the upside is likely to continue. Hence, one should adopt cautiously positive approach at current level as stock specific activity is likely to continue.**
