Market Technical Outlook

Nifty, opened higher traded with choppiness but in the final hour of the trading session witness upside momentum which led nifty to close in green. On the daily chart, we are observing high wave "Doji" candle which suggests indecisiveness prevailing at current level. We still maintain our stance that 16900 – 16800 is a strong demand zone, hence a bounce from current level cannot be ruled out. In coming trading session if nifty trades above 17150 then it may test 17210 - 17320 levels. On the downside, 16900 – 16800 may act as support for the day.

We still maintain our stance that prices are trading below the rising 200-days SMA (17495). Hence, one needs to adopt cautious approach at current level.
