Market Technical Outlook

Nifty, opened lower in wake of weak global clues and witnessed downside momentum in the final hour of the trading session which led nifty to close in red. We maintain our stance that the upward gap area in the range of 14938 to 15043 is likely to act as support for the prices. In coming trading session if Nifty for first hour trades above 15100 level then it may test 15200 - 15250 levels. On the downside, 14900 - 14800 levels may act as support for the day.

We still maintain our stance that, one needs to adopt cautiously positive approach at current level. However, stock specific activity is likely to continue in small and Mid-cap stocks.
