Market Technical Outlook

Nifty opened down with gap in wake of weak global clues. On the daily chart, we are observing a downward gap area in the range of 16211 – 15984. Normally, downward gap area does act as resistance for the prices. In coming trading session if Nifty for first hour trades below 15800 level then it may test 15700 – 15600 levels. On the upside, 15900 – 16000 levels may act as resistance for the day, **Broadly, looking at current price action, the recent low of 15735 remains crucial level if breached then momentum on the downside may intensify. We still maintain our stance that on the daily chart prices are making a lower top lower bottom formation. Hence, rallies are likely to attract selling pressure. At present, one needs to adopt cautiously positive approach at current level.**
