Nifty opened lower traded with choppiness and finally close in red. On the daily chart, after a strong bear candle we are witnessing a "Doji" candlestick pattern which indicates indecisiveness prevailing at current level. In coming trading session if Nifty trades below 15250 level then it may test 15150 - 15050 levels. On the upside, 15400 - 15500 levels may act as resistance for the day.

We still continue to maintain our stance that one needs to adopt cautious approach at current level.
