Market Technical Outlook

Nifty, opened higher but was unable to sustain the opening gains and selling in the latter half of the session drag nifty to close in red. On the daily chart, we are observing that prices almost tested the 50-days SMA (18020) by making a high of 18004 and for the third consecutive trading sessions has close below 50-day SMA. This suggests weakness. In coming trading session if nifty trades below 17800 level then it may test 17730 – 17640 levels. On the upside, 17960– 18150 levels may act as resistance for the day.

We maintain our stance that the falling 50-day SMA (18020) is crucial resistance. As long as nifty trades below the mentioned level one needs to adopt cautious approach at current level.
