Market Technical Outlook

Nifty, opened on a subdued note but witnessed selling in the latter half of the session which led nifty to close in red. On the daily chart we are observing that prices have tested the upward gap area of 14938 to 15043 and have marginally closed below it. In coming trading session if nifty for first hour holds 14900 level then it may test 15000- 15150 levels. On the downside, 14800 -14700 levels may act as support for the day.

We still maintain our stance that, one needs to adopt cautiously positive approach at current level. However, stock specific activity is likely to continue in small and Mid-cap stocks.
