### Market Technical Outlook

Nifty opened higher traded in a narrow range throughout the day to close in green. On the daily chart, we are observing that prices are trading between the strong supply zone of 16443 to 16793. In coming trading session if Nifty for first hour trades above 16590 level then it may test 16650 - 16740 levels. On the downside, 16430 - 16300 levels may act as support for the day.

**We maintain our stance that prices have convincingly reclaimed the 50-days SMA (16142). We are of the opinion that one needs to adopt cautiously positive approach at current level as stock specific activity is likely to continue.**
