Nifty opened down with gap and traded with choppiness in a narrow range only in last one hour we have seen some recovery. On the daily chart we are observing Nifty has tested "Upward gap" area and rebound from there. We continue maintain our stance that the upward gap area of 17328 to 17434 is likely to act as support for the prices. In coming trading session if Nifty trades above 17580 level then it may test 17650 - 17710 levels. On the downside, 17400 – 17300 levels may act as support for the day.

We maintain our stance that the momentum indicator viz. RSI is gaining momentum. Hence, momentum on the upside is likely to continue. Hence, one should adopt positive approach at current level.
