Nifty, opened lower in wake of weak global clue and almost tested the 50-daysSMA (18124) by making a low of 18202 from where it made a recovery of 202 points to close in red. On the daily chart, we are observing a candlestick pattern that resembles a bullish Hammer. The said pattern will get activated if nifty trades and close above 18404 level. In such scenario nifty is likely to test the 18500-18600 levels. On the downside, 18300-18200 levels may act as support for the day.

Broadly, looking at the current price action we are of the opinion that 18600 – 18700 supply zone now remains major hurdle any daily close above the mentioned supply zone would propel nifty to test 19000 – 19500 levels in couple of weeks. However, in such market stock specific activity is likely to continue.
