### Market Technical Outlook

Nifty opened lower traded with choppiness and finally managed to close in red. On the daily chart, we are observing a “Doji” candlestick pattern which indicate indecisiveness prevailing at current level. Since, prices are trading well below the 50-daysSMA (17454) this suggests weakness. In coming trading session if Nifty for first hour trades below 17194 level then it may test 17100 – 17000 levels. On the upside, 17300 – 17420 levels may act as resistance for the day.

**We maintain our stance that 16864 the 200-days SMA now remains a break or a make level going forward.**
