Market Technical Outlook

Nifty, opened on a subdued note but momentum on the downside intensified as the day progressed which dragged Nifty to close in red. On the daily chart, we are observing that prices have closed below 21-day SMA. This suggests that momentum on the downside may continue further. In coming trading session if Nifty trades below 14635 levels then it is likely to test 14500 - 14400 levels. On the upside, 14800 - 14950 levels may act as resistance for the day.

Broadly, we are of the opinion that the upward gap area in the range of 14336 to 14469 (formed on 2nd-Feb- 2021) may act as support for prices going forward. At present one needs to adopt cautiously positive on the market as stock specific move is likely to continue
