Market Technical Outlook

Nifty, opened on a subdued note and traded with extreme choppiness and finally managed to close marginally in red. On the daily chart, we are observing that prices have closed marginally below the 50-day SMA (14759). In coming trading session if Nifty trades above 14790 level then it may test 14850 -14950 levels. On the downside, 14650 – 14550 levels may act as support for the day.

Broadly, we are of the opinion that prices needs to close above 50-day SMA (14759) for two consecutive sessions with good volumes for undertone to get on the positive side. Hence, one needs to be cautious at current level.
