Market Technical Outlook

Nifty opened down with a gap and traded with negative bias throughout the day to close in red. On the daily chart we are observing a downward gap area in the range of 16535 to 16509 levels. Normally downward gap area does act as resistance for the day. In coming trading session if Nifty for first hour trades above 16530 then it may test 16580– 16620 levels. On the downside, 16360– 16240 levels may act as support for the day.

We still continue to maintain our stance that stock specific activity is likely to continue.
