Nifty opened on a flat note, but selling pressure was continue throughout a day which dragged nifty to close in red. On the daily chart, we are observing that prices have closed below the 50-day SMA (17850) & coming closer to 100 day SMA. This suggests that the undertone is turning negative. In coming trading session if Nifty for first hour trades below 17350 level then it may test 17200 - 17120 levels. On the upside 17450 - 17550 levels may act as resistance for the day.

At present one needs to adopt cautiously approach at current level.
