Nifty, opened on a subdued note traded with choppiness but finally close in red. On the daily chart, after a four days of a fall we are observing a spinning top pattern. This gives small clue that prior trend is losing breath. Hence, a bounce from current level cannot be ruled out. In coming trading session if nifty trades above 17600 level then it may test 17650 - 17770 levels. On the downside, 17400 - 17300 levels may act as support for the day.

We continue to maintain our stance that the falling 50-day SMA (17963) is crucial resistance. As long as nifty trades below the mentioned level one needs to adopt cautious approach at current level.
