Market Technical Outlook

Nifty, opened higher trade in a narrow range throughout the day with positive bias to close in green. On the daily chart, we are observing a “Doji” candle which has closed above the 50-day SMA (14769). In coming trading session if nifty trades above 14880 level then it may test 14950 – 15000 levels. On the downside, 14700 – 14600 levels may act as support for the day.

Since, the prices have closed above 50-day SMA (14769) the undertone has slightly turned positive. Hence, one needs to adopt cautiously positive approach at current level as stock specific activity is likely to continue.
