Market Technical Outlook

Nifty, opened lower in wake of weak global clue traded with choppiness and finally close in red. On the daily chart, we are observing that prices are facing resistance at 17224. Further, the current price action has formed a “Doji” candlestick pattern. This suggests indecisiveness prevailing at current level. In coming trading session if nifty trades below 17030 level then it may test 16950 – 16840 levels. On the upside, 17150 – 17224 level may act as resistance for the day.

We still maintain our stance that prices are trading below the rising 200-days SMA (17463). Hence, one needs to adopt cautious approach at current level.
