### Market Technical Outlook

Nifty opened up with a gap traded in a narrow range with positive bias to close in green. On the daily chart, we are observing an upward gap area in the range 16971 to 17015. Normally upward gap area act as support going forward. Hence, in coming trading session if Nifty for first hour trades above 17120 levels then it may test 17200 - 17250 levels. On the downside, 16950 – 16860 levels may act as support for the day. **We maintain our stance that one still needs to adopt cautious approach at current level.**
