Market Technical Outlook

Nifty, opened lower traded with negative bias throughout day with choppiness to close in red. On the daily chart, we are observing a bear candle which has convincingly closed below the 50-day SMA (14770). This suggests weakness. In coming trading session if Nifty trades below 14500 level then it may test 14400 – 14300 levels. On the upside, 15650 – 14750 levels may act as resistance for the day. **Since, the prices have closed below 50-day SMA (14770), one needs to adopt cautious approach at current level. However stock specific activity is likely to continue**
