Source: BSE

Nifty, opened down with a gap and traded with negative bias throughout the day to close in red. On the daily chart we are witnessing a downward gap area in the range of 18759 to 18756 and even the prices have closed marginally below 20 day SMA (18667). This suggests weakness going forward. In coming trading session if nifty trades below 18640 then it is likely to test 18550 – 18450 levels. On the upside, 18750 – 18810 levels may act as support for the day.

We still continue to maintain or stance that looking at the major pattern of inverse head and shoulder formed above 17900 level suggests that market is heading to test all-time high or even head higher in couple of weeks. Hence, one needs to adopt positive approach at current level as stock specific activity is likely to continue.
