Market Technical Outlook

Nifty opened lower traded with choppiness but finally close in red. On the daily chart, we are observing two consecutive spinning top candlestick pattern within the supply zone (16443 to 16793), which gives small clue that the prior uptrend is losing breath. In coming trading session if Nifty for first hour trades below 16560 level then it may test 16480 – 16360 levels. On the upside, 16750 – 16793 may act as resistance for the day.

We maintain our stance that there is high probability that we may see a pullback from the supply zone. Hence, we are of the opinion that one needs to adopt cautiously positive approach at current level as stock specific activity is likely to continue.
