Market Technical Outlook

Nifty opened lower traded with choppiness but finally closed on a flat note. On the daily chart, we are observing a “Doji” candlestick pattern at the demand zone of 19600– 19500 level. This clearly indicates that a bounce from current level cannot be ruled out. Incoming trading session if nifty trades above 19705 then it may test 19780 – 19890 levels. On downside, 19570 – 19460 level may act as support for the day.

We maintain our stance that 19500 – 19600 is strong demand zone from where a bounce cannot be ruled out. However, stock specific activity is likely to continue.
