Market Technical Outlook

Nifty, opened lower and momentum on the downside intensified as the day progressed which led nifty to close in red. On the daily chart, we are observing two consecutive strong bear candles which clearly suggest weakness. In coming trading session if nifty trades below 19060 level then it may test 19010 - 18980 levels. On the upside, 19240 - 19330 levels may act as resistance for the day.

Since, prices have started trading below the 50-days SMA (19607), one needs to adopt cautious approach at current level.
