Market Technical Outlook

Nifty opened higher and momentum on the upside intensified as the day progressed which led the indices to close in green. On the daily chart we are observing strong bull candle which has closed above the supply zone (shown above in the graph). This suggests that momentum on the upside is likely to continue.

In coming trading session if Nifty opens in the range of 12034 - 12009 then, go long, with a stop loss of 11950 for a target of 12111 - 12136 - 12200 levels.

News for stocks
