Nifty opened higher but was unable to sustain the opening gains and selling in the latter half of the session dragged Nifty to close in red. On the daily chart, we are observing bearish engulfing pattern. The said pattern will get activated if Nifty trades and close below 12833. In such scenario Nifty may test 12700 - 12600 levels. On the upside, 12950 - 13100 levels may act as resistance for the day.

We maintain our stance that the trend remains up but a consolidation or minor correction from current level cannot be ruled out. Hence, one should adopt buy on decline strategy.
