Market Technical Outlook

Nifty, opened higher but was unable to sustain the opening gains and selling intensified as the day progressed which led the nifty to close in red. On the daily chart we are observing that prices have closed below the 21-day SMA. This suggests that uptrend has come under pressure. In coming trading session if Nifty trades below 14200 level then it may test 14100 -14000 levels. On the upside, 14300- 14500 levels may act as resistance for the day.

We still maintain our stance that 14300 – 14000 is strong demand zone and as long as nifty holds the mentioned demand zone one needs to trade with positive bias.
